WSP COMMITTEE Meeting Agenda & Minutes Wednesday, 21th September at 6pm.

Item	Notes
Present	Therese May (Tess), Georgia Moran, Tim Edwards, Bronwyn
	Wright, Yasmin Davis, Catherine Vowles, Teresa Gibbison, Roger
	Griffiths
Apologies	Sarah Wolf, Sarah Lee
Conflicts of interest	None
Minutes from previous	Accepted by: Therese May
Hui	<u>Seconded by:</u> Bronwyn Wright
Matters arising	None
Financial reports (sent by	Accepted by: Therese May
email)	Seconded by: Roger Griffiths
Matters arising	None
Manager's Report (sent	Accepted by: Roger Griffiths
by email)	Seconded by: Bronwyn Wright

Matters arisingsuitable cleaner for the society's studio. Tess: Recapped that Sarah had approached two commercial cleaners that had given indicative pricing and both turned down the job. One citing the concern with clay impact on their equipment and the other saying they had staff shortage and couldn't do it. Georgia: Does the studio have their own wet vac? Tess: Yes Georgia: Can we set up volunteer cleaning rosters? Tess: No, it requires someone experienced with the wet vac, needs to be done when minimal people around (health & safety). Teresa: It will put people off volunteering. Catherine: How many hours and days a week? What is it paying? Tess: about \$40/hr to commercial interests and job requires 2 to 3 hours once a week (from memory). Roger: And \$26/hr to potential cleaner employee. Not advertised for someone to fill the role because concerned at calibre and honesty/integrity of applicants. People don't want the job because of insufficient hours and income and commercial cleaners don't want it as the job is too small to be worth their while. Teresa: Can't understand why the cleaning company is concerned with clay damage to their equipment when they would be using the studio's gear. Georgia: Can we police check individual applicants? Therese: Possibly, will discuss with Sarah Wolf.VolunteersTess: In the past we've had retired people or people with flexible working hours come in during the week as volunteers but over the course of time many of these have gone for one reason or another. If anyone knows of people in such situations please see if they would be willing to volunteer with the studio during the week. Georgia: I am volunteering Wednesdays and am able to be flexible with work hours. (Minutes taker) Discussion on volunteers halted to discuss later in meeting.		
Wetter's arisingSarah had approached two commercial cleaners that had given indicative pricing and both turned down the job. One citing the concern with clay impact on their equipment and the other saying they had staff shortage and couldn't do it.Georgia: Does the studio have their own wet vac? Tess: Yes Georgia: Can we set up volunteer cleaning rosters? Tess: No, it requires someone experienced with the wet vac, needs to be done when minimal people around (health & safety). 		meeting,
Therese: Does Yasmin have an update on Eric? Yasmin: Yes,		Therese: Does Yasmin have an update on Eric? Yasmin: Yes,
Eric van der Sluis There have been issues trying to contact Eric to arrange picking up	Eric van der Sluis	There have been issues trying to contact Eric to arrange picking up
the last things from him that he had been arranging with Stephen		the last things from him that he had been arranging with Stephen
before he left. Stephen had picked up some things but I've not		before he left. Stephen had picked up some things but I've not

	been able to get any response from contacting Eric for what remains. The elder potters have dementia. I could try a visit to them but unsure what kind of reception I might get from two people with dementia and Eric lives elsewhere. Eric does not answer phone calls. Could reach out to Stephen to see if he has any other way of contacting Eric or any tips on how to resolve this so we can collect the last items. Tess: Are we (WSP) out of pocket? Yasmin: No, we shouldn't be, we got quite a lot of tools from them. Tess: What is left to pick up? Yasmin: Kiln props, stains, materials, plaster moulds etc. Things left don't require a big truck.
Wood firing	Tess: Note to self to get an update on wood firing.
Casabella Lane Pottery	Teresa: Managers report advised that a booking event was lost to the Casabella Lane Pottery. Are we concerned? Anything we can do to prevent it from happening again? Tess: We pay our tutors fairly, have quality facilities so undercutting is questionable in terms of what quality the experience was for the customer. Teresa: Can't cut our costs to be competitive. Yasmin: Had heard a couple of tutors going to Casabella and are qualified but run differently to WSP. Glaze (firing?) done by someone else. For people wanting to learn pottery, we are the ones to come to. They are more for the dabblers wanting aspects of the experience done for them rather than learning and doing themselves. Roger: Is this like Splashy (referring to Casabella Lane Pottery)? Tess: Yes
Departure	Bronwyn dropped out of meeting about 6:30pm
Sick Staff and absenteeism	Tess: Requires volunteers during the week who can be flexible. Georgia on request from Teresa - gave intro on her situation, joining the committee and volunteering on Wednesdays after having talked with Sarah Wolf on how she can help. Catherine: I may be able to help too. Teresa: I can help load the kilns on Saturday depending on how busy it gets. Roger: When is the next kiln licence course? Tess: Not sure any are planned at the

	moment. Georgia: I'm keen to do a kiln licence course too. Tess: I
	may be able to help load the kilns too.
	Tess: Student situation? Yasmin: Distance is an issue. They
Dialogo Desert	(students) catch up with each other but evidence of actually doing
Diploma Report	anything is concerning. They have just 5 to 6 weeks to go till
	assessments start, Rob is responsible for the Diploma
	assessment/issuing but is based in Dunedin. When he does his
	rounds is a bit of an unknown. We think it may be 4th November
	this year which may put students under pressure to meet the
	deadline. We do check up with students using Zoom and online
	"stuff" e.g. emails. We try to keep a finger on the pulse but the
	students are adults and can't hold their hands all the way, they
	have to be adults and organise themselves, we can only guide. (On
	new recruits for the diploma course) People do come through to
	Yasmin and Rob looking at doing the diploma and there is interest
	in the next intake. We have two leaving and 4 remaining
	(hopefully). Alex has tried info evenings but it does not yield good
	results. Thinking of school exposure, like Hillcrest high which has a
	good careers advisory system, Katy came to us that way and she is
	really good. Alex is putting good things together for a campaign
	drive to pique student interest.
	Tess: Minutes taking - thinking that rather burdening one person to
Secretary duties	always take the minutes they be rostered so that everyone has a
	turn with these meetings. Teresa: I am happy to do them. I am
 Minute taker roster 	comfortable with entering them into Google docs directly during the
	meeting. Roger: Entering directly for some people will depend on
Answers emails	typing speed, some are quicker and more capable than others,
	Teresa: Yes, agree some will find typing directly quicker/easier than
	others, again happy to do the minutes. Just feel a bit put upon if
	spending hours outside of meeting doing volunteer work given I do
	the Saturday volunteering, emails for the committee and other
	things but also work full time.
	(<i>Minutes taker</i>) Some discussion, hard to follow but same again
	regarding emails, as Teresa said she is happy to do email
	monitoring and responding or escalating if necessary to the chair if

	it is not too invosive with own time. Coorsis offered to halp with
	it is not too invasive with own time. Georgia offered to help with
	email too.
	Yasmin: Can probably help with the loading of the kilns on Friday.
Volunteers	Teresa: We have a decent register of volunteers and have a
	handful that rotate on the Saturdays. (Minute taker) Teresa
	demonstrated the roster calendar and how it works. Does only one
	month at a time. Uses a calendar to contact people re: availability.
	Currently organisers of volunteers are: Tess: Tues/Thurs, Sarah
	Wolf: Wed and Teresa: Saturdays.
	Yasmin: Just a really busy time and not ready for another one. Not
Throw down	really available to put the time in. Needs to be planned well ahead
	to build the enthusiasm. Tess: That's ok
	Tess: When was the planning day in 2020? Teresa: In January, but
Planning Day	don't know the actual date. Tess: Will ask Sarah Wolf. Everyone ok
	with January? (<i>Minutes taker</i>) No objections to January
	Anything to mention/add to the register?
Risk Register	Yasmin: Sarah Wolf is getting really run down with staff and
	volunteer shortages (esp. Kiln loading during the week), the cleaner
	issue, Margaret being away. We need to support her more. Tess:
	Staff burnout already noted in the RR but thank you for bringing this
	to our attention. The issue is the culture of membership has
	changed. People are less aware that as a society we aim to help
	out for the good of the society. Many just want to come, use the
	facilities for their own projects and leave. Georgia: We maybe
	should look to people with the time that are artisans, get them
	interested in pottery and volunteering? What age does a volunteer
	assistant need to be? Tess: Not sure, will find out. <i>(Minutes taker)</i>
	Some discussion around who are the keyholders, how that works.
	Roger: People might not volunteer because they feel they don't
	have the necessary skill set. Tess: We support by volunteering and
	enabling others to learn from other members. We used to have a
	, and the second s
	list of what volunteers can do to help. Will follow up with what is
	expected with PWC volunteers, Yasmin: We tend to only hear,
	needing help with cleaning, load/unload kilns, when there are
	probably other things that would help relieve the workload for the
	paid personnel if done by volunteers. Georgia: We could have a

	-
	tasks list with A, B, C, D designation for tasks. Volunteers can be
	assigned a letter to do that task, so it is known to be assigned -
	given a time to do it in. Teresa: We need to be careful here. The
	committee is about strategic requirements and the paid staff are
	about the operational duties. It is not for the committee to dictate
	the role of the paid personnel, that is for the manager to direct.
	Tess: Can a duties list have things on it that the manager does not
	mind volunteers doing? Teresa: The list does not necessarily get
	actioned. Georgia: How do we get volunteers to act on the list of
	items? Yasmin: Suggest there be a whiteboard that the manager
	can choose to use when needing assistance on any given day to
	list volunteer jobs that would help relieve the load for those coming
	into the studio to see and offer to help with. Tess: Who's coming
	in? Yasmin: Staff are away on the day, board to have what needs
	doing and where they need help as detailed by the manager.
	Teresa: It's not our job to be operational. Georgia: Sarah was on
	her own today and very tired. Yasmins idea of the whiteboard is a
	good one. Yasmin: It puts Sarah in a position to ask for help
	indirectly as and when she needs it. Tess: It's not our role to tell
	Sarah how to do her job. Will ask about the list idea, defining jobs
	with Sarah that volunteers can do. Having people who can come in
	during the working week to help. Will ask about having a cleaning
	bee (committee members and volunteers) as a stop gap for the
	cleaning issue.
A.O.B.	WSP Committee Gmail account password reset. Teresa: Protocol says we should change these now some people have resigned from the committee Action point??
Board Only
